enterprise management theories about the so called bionic organization currently face a significant funding gap bionic theories have been mainly applied to enterprise lifecycle because of the presence of similarities between economic organizations and organisms the digital transformation has offered advancements in the bionics research field which enable us to discuss bionic organizations for the first time as business realities in which humans and machines especially robotic process automation systems and artificial intelligence tools cooperate in executing operations this book determines how a bionic organization can be defined and what are its fundamental elements in the case of banking specifically it investigates the two pillars of bionic enterprise which are technology and humans as well as the core objectives and outcomes in order to provide an exhaustive overview the book

proposes a new conceptualization of the business model of a bionic organization on the basis of the business model canvas framework ultimately the study of bionic organizations is aimed to discover also how they evolved in the post pandemic phase as a result of the disruptive events generated by the spread of the pandemic the research on the book has been conducted through a qualitative and descriptive methodology with the intent to build further knowledge about the topic starting from the information available in literature to provide actual evidence of the reality of bionic financial services the book includes case studies the organizations observed in the study have been selected since they present some of the key traits identified by the bionic enterprise theory the book demonstrates that bionic enterprise theory can be further enriched with the conceptualization of a bionic business model in which the paradigm of collaboration between humans and machines is a recurring element

marketing and communications are ever evolving areas with trends and issues quickly emerging and often fading just as fast an evergreen issue that continues to gain more and more traction is that of socially responsible and ethical marketing the text discusses the increasing importance of socially responsible and ethical marketing and communication in today s world where social media and social marketing have a wide reach with practical applications and case studies for marketing and management practitioners to implement socially responsible and ethical communication campaigns the book provides a tool kit for marketing and management practitioners to implement socially responsible and ethical communication campaigns it is a must read for researchers in social and ethical marketing as well as educators in marketing communication social responsibility sustainability and ethics

in recent years a wave of reforms known as nudges or behavioural interventions have emerged in public policy and administration nudge policies are created to lightly influence groups in society to change their behaviour using behavioural insights to solve complex policy problems generally behavioural approaches focus on the psychology underlying the implementation and effects of policies in practice first published as a special issue of policy politics journal this book situates these reforms within a broader tradition of methodological individualism with contributions from international scholars it demonstrates that when behavioural policies expand their focus beyond the individual they have the potential to better understand investigate and shape social outcomes

this book observes that a key determinant of europe s welfare over the coming decades will be how the region manages crises both financial and societal it examines how key institutional developments such as economic and monetary union reflected differentiated integration di in the eu but argues that modern day risks are highly interconnected and their management therefore has to be inclusive in that connection it looks in particular at the european systemic risk board esrb whose mandate to protect financial stability also gives it relevance with regard to other crises the book considers that the strengthening of this institution and bringing it to the fore would help eu member states as well as countries around the eu including applicant nations to manage financial and societal risks including covid 19 and the transition to a green economy thus safeguarding the economies of europe it builds on a model of the eu allowing for di in some activities while ensuring sound governance arrangements between those inside and those outside that activity and embodying inclusivity in the fundamentals of the eu including in the management of risk

beyond europe central asia the middle east and global economy is an interesting look at the role of central asia and the middle east in the global and eurasian economy authors of this volume highlight the most important conditions of global and regional cooperation and political and economic competition the volume provides a broad and critical analysis of regional geoeconomic trends it underscores the most important conditions of global and regional cooperation and political and economic rivalry as well as the position of regions in the economic and foreign policy of global and regional powers the wide selection of examples means that the reader receives a large dose of knowledge about the political and economic realities of these regions the ongoing processes and the specifics of the rivalry

this book highlights the impact of covid 19 on environmental sustainability and sdg s using various case studies the year 2020 was a historical year mainly due to the pandemic caused by covid 19 and it influenced or affected the global economy business models and the industrial sectors thus impacting sustainability in various ways given that sustainability has many faces and facets it is worthwhile to deal with the relation or impact of covid 19 on various elements of sustainability this book presents how covid 19 has influenced environmental sustainability along with the sdg s

report of exchanges of ideas and thoughts generated through deliberations in a series of seminars organized in five different towns of assam between nov 1998 and march 1999

a clear dichotomy exists between an european economy centred on international trade and the environmental damage to which this focus gives rise there is a need for a novel approach based on a shift away from the goal of ever faster travel and ever greater time savings and the adoption of a different concept of accessibility will the 2000s see the emergence of a new way of thinking these and other topical issues were the subject of the ecmt s 15th international symposium are we likely to see a decoupling of economic growth from transport growth in designing future transport systems will the pendulum swing away from the criterion of efficiency towards greater concern for equity and the environment this book reproduces the 17 introductory reports presented at the symposium together

with a summary of the discussions on the three main topics scenarios and forecasts transforming structures and trends in technology peripherality and pan european integration it highlights the key ideas to emerge from the final round table on efficiency equity and the environment in transport experience and prospects reviews the issues facing the transport sector in the coming years and sets out policy recommendations for meeting the challenges of the 2000s
